

M-office Plus Landline free forward to Skype

Main Features

- Good voice communication tool for WFH (Work From Home)
- Forward mode for personal usage and PBX mode for SOHO office or company division
- Perfectly integrate landline, Skype and mobile phone calls
- Under Forward mode, incoming landline calls or PBX extension calls will be forwarded to either assigned mobile phone Skype for free or assigned mobile phone number via SkypeOut™. M-office is a good replacement of SkypeIn service and very useful for areas without SkypeIn™ service
- With M-office connecting with mobile employee's office extension line, colleagues simply call the employee's extension number when the mobile employee is not in office to save expensive mobile phone fee and make communication easy
- After M-office is connecting with PBX analog extension line, employees can dial the extension and make any Skype or SkypeOut calls
- 10 Allowed Skype callers can make a Skype call-in and then call any landline call using M-office connecting office landline (Avoid callee's reluctance to answer your SkypeOut call with an unfamiliar caller ID)
- Under PBX mode, extension table and customized IVRs are supported for basic PBX application. Employees can answer office incoming calls via own mobile phones
- M-office software online upgrade and latest software version check/ download
